

Foldable container

Benefits of the foldable container

- up to 74% volume reduction, efficient for storage and transport
- easy to handle, efficient order-picking
- ideal for use in fully automated systems
- no product loss or damage
- 100% recyclable, so no waste

About Euro Pool System

Euro Pool System is Europe's largest logistics service provider of returnable packaging for fresh products. Since 1972, Euro Pool System has developed into an all-round logistics partner for retailers. The basis of this success is the full packaging concept comprising foldable containers, rigid containers, pool pallets and BigBox. Customers can depend on the permanent availability of clean containers throughout the entire growing season. In Europe, millions of blue and green containers rotate each year and are washed after each use by one of the numerous European service centres.

Benefits throughout the chain

- up to 74% volume reduction when folded, giving efficient for storage and transport
- ideal for use in fully automated systems
- also suitable for automatic order-picking (is this a duplicate of prior point?)
- washed to highest standards
- 100% recyclable, so no waste
- easy to handle, efficient order-picking
- numerous ventilation holes keep your product in optimal condition
- inter-stackable, also with other types of packaging
- withstands heavy loads
- four handgrips and a sliding base for optimal user-friendliness
- it folds and unfolds in only two seconds
- larger internal volume – consequently, more product capacity
- useful card holder for product information

Benefits at point of sale

- no product loss or damage
- uniform and consistent colour for perfect product presentation in stores
- standard sizes for easy individual shelf distribution
- flat base

Available in six models
